
Bath & North East Somerset Council

Dear Lilly

Thank you for your applications for a 'Good Ideas Grant'.

We really liked your idea to increase the number of children playing with equipment so that they become more physically active. It is very important that we move around and don't spend too long sitting down every day. It is also good to have plenty to do so that you don't get bored!

I am very pleased to let you know that we will be sending the school £100 for you to spend on this and am sure your ideas will help make your school a healthier place to be.

Please let Mrs Courtier know that the money will come to the school in the next cash advance labelled 'Good Ideas grant'.

Good luck with your work and if you take any pictures of your new ideas in action, I would be very pleased to see them!

Best wishes

Judy
